

Artificial Intelligence Technologies Covered

Artificial Intelligence Technologies Covered

1. GSM
2. GPS
3. Sensor
4. Wi-Fi
5. Machine Learning
6. Variable Numeric Algorithm Controlled
7. Neural Network
8. Use of CNC shield
9. Technology for manage x and y axis
10. Technology for manage x ,y and z axis(3D PRINTER)
11. Laser Technology
12. Use of CNC shield
13. Pattern Recognition
14. Data Verification
15. Machine to Machine communication
16. Data Manipulation
17. Bluetooth
18. IoT
19. Level controller for drone
